Department of
Computer Science and Engineering

**RAJAMAHENDRI
INSTITUTE OF ENGINEERING &
TECHNOLOGY**

Approved by AICTE, New Delhi Affiliated
by JNTUK and Accredited by NAAC
Bhoopalapatnam, RAJAMAHENDRAVARAM,
AP, 533107.

About the Institute

Rajamahendri Institute of Engineering and Technology popularly known as "RIET" was established in the year 2008 in Rajahmundry by "The Swarnandhra Educational Society" pioneered by Technocrats, Academicians and Philanthropists with a concrete plan to offer excellence in technical education and to meet the present as well as the changing needs of the corporate sector. The college is located in a peaceful and lush green environment away from the din and bustle of the crowded city life which is free from pollution and congenial to attain technical knowledge.

The college is affiliated to JNTUK Kakinada and approved by AICTE, New Delhi, Accredited by NAAC and Govt. of Andhra Pradesh. The college was started in the year 2008 with an intake of 240 students in 4 branches of B.Tech., with 60 students each in EEE, ECE, CSE and Mechanical Engineering branch were started with an intake of 60 in the year 2011. RIET has completed 14 years of successful functioning in the areas of Teaching, Learning, Evaluation, Research, Career planning, Training and Placement and is now in its eleventh year of its existence. The college is making rapid strides in the field of technical education and has emerged as a reputed institution in the JNTUK, Kakinada, Andhra Pradesh region. The institution always tries to look ahead in pursuit of excellence. All the management members of the college believe in adapting to the changes in advanced technologies. They continuously develop the infrastructural and instructional facilities of the institution for better performance in Engineering & Technology programmes.

About the Department

The Computer Science and Engineering department was established in the year 2008 with initial intake of 60 seats, increased to 120 in the year 2010. The Department of Computer Science and Engineering has a mission to empower every student to be industrious, creative and quality conscious in the field of Information Technology by imparting quality technical education and inculcating human and ethical values. The faculty members are highly qualified and experienced with specialization in Machine Learning, Data Science, Networking, Algorithms, Data Mining, Image Processing, Software Engineering, Network Security, Computer Vision, Web Technologies, Internet of Things, Cloud Computing Services etc. Students are given proper exposure to current trends including IoT applications design and development, Cisco network management and administration, cloud services, bio-informatics, software architecture, sensor networks, cloud computing, mobile computing, soft computing, block chain technology, and artificial intelligence etc. through workshops, guest lectures, seminars by industry experts and professionals.

About the Program

This full day workshop intends to explore design experiments to create a deeper understanding of the underpinning mindsets, epistemological assumptions and their implications as well as possibilities within the context of academic research. The participants

will contribute with their experiences of conducting design experiments in a variety of settings and contexts. During the workshop the participants will give and get feedback on the experiments presented and explored, and participate in the discussion and development of (new) principles for design experiments in academic research.

Topics to be Covered

- ❖ Design experiments to identify the optimum combination to minimize cost and increase quality and productivity.
- ❖ Improving process or product "robustness".
- ❖ Analyze and interpret the results from the partial factorial DOE.
- ❖ Recognize the main principles and benefits of Robust Design DOE.
- ❖ Improve the quality of products by optimizing the variables.
- ❖ Reduce material waste due to frequent rejects on the product resulting from quality problems.
- ❖ Increase productivity by reducing quality problems. Reduce the cost of production due to the ability to detect quality problems faster.

PROGRAMME REPORT

PROGRAMME NAME	A one-day seminar on "DESIGN OF EXPERIMENTS IN RESEARCH METHODOLOGY"
RESOURCE PERSON	Dr. N.POORNIMA
DATE OF ACTIVITY	01-07-2022
ORGANIZED BY	RAJAMAHENDRI INSTITUTE OF ENGINEERING AND TECHNOLOGY
VENUE	RIET LH-05
COORDINATOR	Mr.CH. GOPI

OBJECTIVE OF THE PROGRAMME:

This full day workshop intends to explore design experiments to create a deeper understanding of the underpinning mindsets, epistemological assumptions and their implications as well as possibilities within the context of academic research. The participants will contribute with their experiences of conducting design experiments in a variety of settings and contexts. During the workshop the participants will give and get feedback on the experiments presented and explored, and participate in the discussion and development of (new) principles for design experiments in academic research.

eMail: office@rietrjy.co.in

Website: www.rietrjy.co.in

Ph: +91 91212 14413

OUTCOME OF THE PROGRAMME:

- ✓ The students and faculty learned about "DESIGN OF EXPERIMENTS IN RESEARCH METHODOLOGY"
- ✓ They give knowledge on:
 - Research on continuous process to identify the problem and find its solution.
 - Legal Research is necessary to give proper direction to the study of law.
 - This will help to students to understand various principles, methods and tools for research.

RAJAMAHENDRI

INSTITUTE OF ENGINEERING & TECHNOLOGY

(Approved by AICTE, New Delhi, Affiliated to JNTUK, Kakinada, Accredited BY NAAC)

Ph: +91 91212 14413

One aim of the workshop is to develop a conceptual map that categorizes the various design experiments based on their epistemological assumptions and practical implications for design practice as well as academic research.

TOPICS COVERED

- Design experiments to identify the optimum combination to minimize cost and increase quality and productivity.
- Improving process or product “robustness”.
- Analyze and interpret the results from the partial factorial DOE.
- Recognize the main principles and benefits of Robust Design DOE.
- Improve the quality of products by optimizing the variables.
- Reduce material waste due to frequent rejects on the product resulting from quality problems.
- Increase productivity by reducing quality problems.
- Reduce the cost of production due to the ability to detect quality problems faster.

About the Program

Statistical Data Analysis (DA) and Research Methodology Deals with Collection of data and their applications. Formulation of statistical hypothesis in real life situations. Developing best test procedures to test the hypothesis. Obtaining best confidence sets of unknown parameters. The objective of research is to find answers to the questions by applying scientific procedures.

Topics to be Covered

- Descriptive And Exploratory Statistics
- Predictive And Exploratory Statistics
- Prescriptive And Analytical Statistics
- Collection Of Data
- Research Methodology

RAJAMAHENDRI
INSTITUTE OF ENGINEERING &
TECHNOLOGY

Approved by AICTE, New Delhi Affiliated
by JNTUK and Accredited by NAAC
Bhoopalapatnam, RAJAMAHENDRAVARAM,
AP, 533107.

About the Institute

Rajamahendri Institute of Engineering and Technology popularly known as "RIET" was established in the year 2008 in Rajahmundry by "The Swarnandhra Educational Society" pioneered by Technocrats, Academicians and Philanthropists with a concrete plan to offer excellence in technical education and to meet the present as well as the changing needs of the corporate sector. The college is located in a peaceful and lush green environment away from the din and bustle of the crowded city life which is free from pollution and congenial to attain technical knowledge.

The college is affiliated to JNTUK Kakinada and approved by AICTE, New Delhi, Accredited by NAAC and Govt. of Andhra Pradesh. The college was started in the year 2008 with an intake of 240 students in 4 branches of B.Tech., with 60 students each in EEE, ECE, CSE and Mechanical Engineering branch were started with an intake of 60 in the year 2011. RIET has completed 14 years of successful functioning in the areas of Teaching, Learning, Evaluation, Research, Career planning, Training and Placement and is now in its twelfth year of its existence. The college is making rapid strides in the field of technical education and has emerged as a reputed institution in the JNTUK, Kakinada, Andhra Pradesh region. The institution always tries to look ahead in pursuit of excellence. All the management members of the college believe in adapting to the changes in advanced technologies. They continuously develop the infrastructural and instructional facilities of the institution for better performance in Engineering & Technology programmes.

About the Department

The Computer Science and Engineering department was established in the year 2008 with initial intake of 60 seats, increased to 120 in the year 2010. The Department of Computer Science and Engineering has a mission to empower every student to be industrious, creative and quality conscious in the field of Information Technology by imparting quality technical education and inculcating human and ethical values. The faculty members are highly qualified and experienced with specialization in Machine Learning, Data Science, Networking, Algorithms, Data Mining, Image Processing, Software Engineering, Network Security, Computer Vision, Web Technologies, Internet of Things, Cloud Computing Services etc. Students are given proper exposure to current trends including IoT applications design and development, Cisco network management and administration, cloud services, bio-informatics, software architecture, sensor networks, cloud computing, mobile computing, soft computing, block chain technology, and artificial intelligence etc. through workshops, guest lectures, seminars by industry experts and professionals.

About the Program

Introducing the participants with fundamental of entrepreneurship so that they can understand the requirements and challenges in this area. The applied aspects of this workshop will be practical sessions where they can apply this knowledge in entrepreneurship research. To understand the concept of main components in entrepreneurship, laying out the ground rules and objectives, theory of entrepreneurship and to determine some important research questions.

Topics to be covered

- The null hypothesis
- Risk and uncertainty
- Basics and lack of information
- Markets for future goods and services
- Demand and Supply of capital
- Market augmenting government

PROGRAMME REPORT

Programme name	A one day programme on CLASSICS IN ENTREPRENEURSHIP RESEARCH
Resource person	Ms. DEEPA BALASUBRAMANIAN, CEO, Sedibus, Sedibus, mahalakshmi group
Date of activity	24-08-2022
Organized by	RAJAMAHENDRI INSTITUTE OF ENGINEERING AND TECHNOLOGY
Venue	RAJAMAHENDRI INSTITUTE OF ENGINEERING AND TECHNOLOGY, Room No: 305
Programme coordinator	GARAPATI KRISHNA

Objective of the programme:

Introducing the participants with fundamental of entrepreneurship so that they can understand the requirements and challenges in this area. The applied aspects of this workshop will be practical sessions where they can apply this knowledge in entrepreneurship research.

To understand the concept of main components in entrepreneurship, laying out the ground rules and objectives, theory of entrepreneurship and to determine some important research questions.

Topics covered :

- The null hypothesis
- Risk and uncertainty
- Basics and lack of information
- Markets for future goods and services
- Demand and Supply of capital
- Market augmenting government

Outcome of the programme:

The students and faculty learned about Classics in Entrepreneurship Research. They gain the knowledge on

- How to start the research in entrepreneurship field
- Methods involved in research
- Research procedures
- Relation with future ones
- Methodology: The role of case studies, anecdotes, and natural experiments.

eMail: office@rietrjy.co.in

Website: www.rietrjy.co.in

Ph: +91 91212 14413

Outcome of the program:

The workshop highlighted the importance of innovation in entrepreneurship its value for the longevity of a business. The workshop also emphasized on the opportunity to innovate to make the lives more comfortable and the solution that can be evolved to make a better, easier and more useful. Entrepreneurs must keep themselves abreast with the current trends and demands. Manufacturers are constantly innovating to produce more without sacrificing the quality.

Companies and enterprises keep innovation as part of their organization. Innovations contribute to the success of the company. Entrepreneur, as innovators, see not just one solution to a need. They keep coming up with ideas and do not settle until come up with multiple solutions. Innovation is extremely important that companies often see their employees' creativity as a solution..

RAJAMAHENDRI
INSTITUTE OF ENGINEERING &
TECHNOLOGY

Approved by AICTE, New Delhi Affiliated
by JNTUK and Accredited by NAAC
Bhoopalapatnam, RAJAMAHENDRAVARAM,
AP , 533107.

About the Institute

Rajamahendri Institute of Engineering and Technology popularly known as "RIET" was established in the year 2008 in Rajahmundry by "The Swarnandhra Educational Society" pioneered by Technocrats, Academicians and Philanthropists with a concrete plan to offer excellence in technical education and to meet the present as well as the changing needs of the corporate sector. The college is located in a peaceful and lush green environment away from the din and bustle of the crowded city life which is free from pollution and congenial to attain technical knowledge.

The college is affiliated to JNTUK Kakinada and approved by AICTE, New Delhi, Accredited by NAAC and Govt. of Andhra Pradesh. The college was started in the year 2008 with an intake of 240 students in 4 branches of B.Tech., with 60 students each in EEE, ECE, CSE and Mechanical Engineering branch were started with an intake of 60 in the year 2011. RIET has completed 14 years of successful functioning in the areas of Teaching, Learning, Evaluation, Research, Career planning, Training and Placement and is now in its Twelfth year of its existence. The college is making rapid strides in the field of technical education and has emerged as a reputed institution in the JNTUK, Kakinada, Andhra Pradesh region. The institution always tries to look ahead in pursuit of excellence. All the management members of the college believe in adapting to the changes in advanced technologies. They continuously develop the infrastructural and instructional facilities of the institution for better performance in Engineering & Technology programmes.

About the Department

The Computer Science and Engineering department was established in the year 2008 with initial intake of 60 seats, increased to 120 in the year 2010. The Department of Computer Science and Engineering has a mission to empower every student to be industrious, creative and quality conscious in the field of Information Technology by imparting quality technical education and inculcating human and ethical values. The faculty members are highly qualified and experienced with specialization in Machine Learning, Data Science, Networking, Algorithms, Data Mining, Image Processing, Software Engineering, Network Security, Computer Vision, Web Technologies, Internet of Things, Cloud Computing Services etc. Students are given proper exposure to current trends including IoT applications design and development, Cisco network management and administration, cloud services, bio-informatics, software architecture, sensor networks, cloud computing, mobile computing, soft computing, block chain technology, and artificial intelligence etc. through workshops, guest lectures, seminars by industry experts and professionals.

About the Program

Protection of undisclosed information is least known to players of IPR and also least talked about, although it is perhaps the most important form of protection for industries, R&D institutions and other agencies dealing with IPR. Undisclosed information, generally known as trade secret or confidential information, includes formula, pattern, compilation, programme, device, method, technique, or process.. Laws relating to all forms of IPR are at different stages of implementation in India, but there is no separate and exclusive law for protecting undisclosed information/trade secret or confidential information.

Topics to be Covered

- ❖ IPR
- ❖ Trade secret
- ❖ Taxation
- ❖ Law of contract

About the Program

The importance of intellectual property (IP) in today's economy is growing. IP is a valuable commodity that may be monetized and licensed in the architectural and construction sectors, giving them an advantage in the market. Trademarks, patents, industrial designs, and trade secrets are all examples of intellectual property related to the architectural and construction sectors. The subject of copyrights is the centre of this essay. As with any other copyrighted work, architectural creations are protected under copyright law.

Topics to be Covered

- IP in today's economy
- IP related to the architectural and construction sectors.
- Law of contract
- Health law
- Copy rights law

Approved by AICTE, New Delhi Affiliated
by JNTUK and Accredited by NAAC
Bhoopalapatnam, RAJAMAHENDRAVARAM,
AP , 533107.

About the Institute

Rajamahendri Institute of Engineering and Technology popularly known as “RIET” was established in the year 2008 in Rajahmundry by “The Swarnandhra Educational Society” pioneered by Technocrats, Academicians and Philanthropists with a concrete plan to offer excellence in technical education and to meet the present as well as the changing needs of the corporate sector. The college is located in a peaceful and lush green environment away from the din and bustle of the crowded city life which is free from pollution and congenial to attain technical knowledge.

The college is affiliated to JNTUK Kakinada and approved by AICTE, New Delhi, Accredited by NAAC and Govt. of Andhra Pradesh. The college was started in the year 2008 with an intake of 240 students in 4 branches of B.Tech., with 60 students each in EEE, ECE, CSE and Mechanical Engineering branch were started with an intake of 60 in the year 2011. RIET has completed 13 years of successful functioning in the areas of Teaching, Learning, Evaluation, Research, Career planning, Training and Placement and is now in its eleventh year of its existence. The college is making rapid strides in the field of technical education and has emerged as a reputed institution in the JNTUK, Kakinada, Andhra Pradesh region. The institution always tries to look ahead in pursuit of excellence. All the management members of the college believe in adapting to the changes in advanced technologies. They continuously develop the infrastructural and instructional facilities of the institution for better performance in Engineering & Technology programmes.

About the Department

The Computer Science and Engineering department was established in the year 2008 with initial intake of 60 seats, increased to 120 in the year 2010. The Department of Computer Science and Engineering has a mission to empower every student to be industrious, creative and quality conscious in the field of Information Technology by imparting quality technical education and inculcating human and ethical values. The faculty members are highly qualified and experienced with specialization in Machine Learning, Data Science, Networking, Algorithms, Data Mining, Image Processing, Software Engineering, Network Security, Computer Vision, Web Technologies, Internet of Things, Cloud Computing Services etc. Students are given proper exposure to current trends including IoT applications design and development, Cisco network management and administration, cloud services, bio-informatics, software architecture, sensor networks, cloud computing, mobile computing, soft computing, block chain technology, and artificial intelligence etc. through workshops, guest lectures, seminars by industry experts and professionals.

About the Program

- ❖ To discuss the legislative framework of laws relating to Intellectual Property Protection
- ❖ To discuss about the role of judiciary in providing safeguards for the protection of Intellectual Property Rights.
- ❖ Stay Connected With Social Movements.
- ❖ To find out Intellectual Property challenge in the field of pharmaceuticals and solutions
- ❖ for the same.

Topics to be Covered

- Labour laws
- Patent and Rights
- Law of contract
- Health law
- Against Discrimination

PROGRAMME REPORT

Programme name	A one day programme on INTELLECTUAL PROPERTY RIGHTS VIOLATIONS IN SOFTWARE DEVELOPMENT
Resource person	Mr. Y. RAJESH, HOD of ME BVC college of engineering and technology Ph.No: 9676686310
Date of activity	30-01-2023
Organized by	RAJAMAHENDRI INSTITUTE OF ENGINEERING AND TECHNOLOGY
Venue	RAJAMAHENDRI INSTITUTE OF ENGINEERING AND TECHNOLOGY, Room No: G-4
Programme coordinator	Mr.D.N.V.RAMANA KUMAR

Objective of the programme:

Intellectual property rights are at the foundation of the software industry. Each intellectual property “right” is itself an asset, a slice of the overall ownership pie. The law provides different methods for protecting these rights of ownership based on their type. There are essentially four types of intellectual property rights relevant to software: patents, copyrights, trade secrets and trademarks. Each affords a different type of legal protection. Patents, copyrights and trade secrets can be used to protect the technology itself.

Topics covered :

- software development definition
- IPR Policy
- Ownership of IP
- Violations in software development
- Powers to amend IPR policy

RAJAMAHENDRI INSTITUTE OF ENGINEERING & TECHNOLOGY

(Approved by AICTE, New Delhi, Affiliated to JNTUK, Kakinada, Accredited BY NAAC)
BHOOPALAPATNAM, RAJAMAHENDRAVARAM, E.G. Dist., AP, 533107.
eMail: office@rietryj.co.in Website: www.rietryj.co.in Ph: +91 91212 14413

Outcome of the programme:

The students and faculty learned about Bio informatics and Intellectual property rights. They gain the knowledge on

- To have strong and effective IPR laws, which balance the interests of rights owners with larger public interest
- To modernize and strengthen service oriented IPR administration.
- To strengthen and expand human resources, institutions and capacities for teaching, training, research and skill building in IPR.

On 30-01-2023 from our college students and faculties have participated in Intellectual property rights violations in software development programme.

RAJAMAHENDRI
**INSTITUTE OF ENGINEERING &
TECHNOLOGY**

Approved by AICTE, New Delhi Affiliated
by JNTUK and Accredited by NAAC
Bhoopalapatnam, RAJAMAHENDRAVARAM,
AP, 533107.

About the Institute

Rajamahendri Institute of Engineering and Technology popularly known as "RIET" was established in the year 2008 in Rajahmundry by "The Swarnandhra Educational Society" pioneered by Technocrats, Academicians and Philanthropists with a concrete plan to offer excellence in technical education and to meet the present as well as the changing needs of the corporate sector. The college is located in a peaceful and lush green environment away from the din and bustle of the crowded city life which is free from pollution and congenial to attain technical knowledge.

The college is affiliated to JNTUK Kakinada and approved by AICTE, New Delhi, Accredited by NAAC and Govt. of Andhra Pradesh. The college was started in the year 2008 with an intake of 240 students in 4 branches of B.Tech., with 60 students each in EEE, ECE, CSE and Mechanical Engineering branch were started with an intake of 60 in the year 2011. RIET has completed 14 years of successful functioning in the areas of Teaching, Learning, Evaluation, Research, Career planning, Training and Placement and is now in its twelfth year of its existence. The college is making rapid strides in the field of technical education and has emerged as a reputed institution in the JNTUK, Kakinada, Andhra Pradesh region. The institution always tries to look ahead in pursuit of excellence. All the management members of the college believe in adapting to the changes in advanced technologies. They continuously develop the infrastructural and instructional facilities of the institution for better performance in Engineering & Technology programmes.

About the Department

The Computer Science and Engineering department was established in the year 2008 with initial intake of 60 seats, increased to 120 in the year 2010. The Department of Computer Science and Engineering has a mission to empower every student to be industrious, creative and quality conscious in the field of Information Technology by imparting quality technical education and inculcating human and ethical values. The faculty members are highly qualified and experienced with specialization in Machine Learning, Data Science, Networking, Algorithms, Data Mining, Image Processing, Software Engineering, Network Security, Computer Vision, Web Technologies, Internet of Things, Cloud Computing Services etc. Students are given proper exposure to current trends including IoT applications design and development, Cisco network management and administration, cloud services, bio-informatics, software architecture, sensor networks, cloud computing, mobile computing, soft computing, block chain technology, and artificial intelligence etc. through workshops, guest lectures, seminars by industry experts and professionals.

About the Program

The cornerstone of intellectual property protection in the entertainment sector is copyright law. It gives authors and artists the sole ownership rights to their original writings, music, films, and artwork. The ability to duplicate, distribute, perform, and exhibit the work is one of these rights.

Topics to be Covered

- IPR in entertainment
- Labour laws
- IPR in market
- IP Policy
- Copy right law

PROGRAMME REPORT

Programme name	A one day seminar on INTELLECTUAL PROPERTY RIGHTS IN ENTERTAINMENT AND MARKET
Resource person	Mr. SUNIL GAWASKAR, Pragnya institute Ph. No: 9550066894
Date of activity	20-03-2023
Organized by	RAJAMAHENDRI INSTITUTE OF ENGINEERING AND TECHNOLOGY
Venue	RAJAMAHENDRI INSTITUTE OF ENGINEERING AND TECHNOLOGY, Seminar hall.
Programme coordinator	Mr.D.N.V.RAMANA KUMAR

Objective of the programme:

The cornerstone of intellectual property protection in the entertainment sector is copyright law. It gives authors and artists the sole ownership rights to their original writings, music, films, and artwork. The ability to duplicate, distribute, perform, and exhibit the work is one of these rights.

Topics covered :

- IPR in entertainment
- Labour laws
- IPR in market
- IP Policy
- Copy right law

Outcome of the programme:

The students and faculty learned about intellectual property rights in entertainment and market. They gain the knowledge on To have strong and effective IPR laws, which balance the interests of rights owners with larger public interest. Intellectual Property is an intangible knowledge product and shall mean and include all results, conclusions, deductions, inventions, ideas, improvements, discoveries, enhancements, solutions, process, modifications and copyrightable work, resulting from the intellectual output of the faculty, staff, students, research scholars and other employees of the College.

On 20-03-2023 from our college students and faculties have participated in the intellectual property rights in entertainment and market.

About the Department

The Department of Electronics and Communication Engineering, Rajamahendri Institute of Engineering and Technology was established in the year 2008. The department of ECE has been known for its exceptionally strong Under-Graduate training programmes. Ranked among the prominent in East Godavari, the department has always been on a progressive path, thanks to the experienced and dedicated faculty members who have a strong commitment towards providing quality engineering education.

About the Program

Research Methodology in Social Science

To provide a comprehensive over view of qualitative and quantitative research framework. Social research is a method used by social scientists and researchers to learn about people and societies so that they can design

products/services that cater to various needs of the people. Different socio-economic groups belonging to different parts of a county think differently. Various aspects of human behavior need to be addressed to understand their thoughts and feedback about the social world, which can be done using social research. Any topic can trigger social research – new feature, new market trend or an upgrade in old technology.

Topics to be Covered

- ❖ Different approaches of social science research.
- ❖ Fundamental of social science research
- ❖ Tools and methods of data collection for qualitative and quantitative research
- ❖ Research based on secondary data
- ❖ Data analysis using statistical software
- ❖ Reporting and presentation
- ❖ Citation, reference management tool and plagiarism

OUTCOME OF THE PROGRAMME:

Basic understanding of the concept of research methodology is necessary to appreciate the program. Hence, the workshop started with some theoretical input sessions so as to help the participants to brush the knowledge in basic research methods. Thus both theoretical and practical sessions are to be arranged so that the participants understood, appreciate and able to meaningfully interpret the output. To provide a comprehensive over view of qualitative and quantitative research framework.

Department of

Electronics and Communication Engineering

**RAJAMAHENDRI
INSTITUTE OF ENGINEERING &
TECHNOLOGY**

Approved by AICTE, New Delhi Affiliated
by JNTUK and Accredited by NAAC
Bhoopalapatnam, RAJAMAHENDRAVARAM,
AP, 533107.

About the Institute

Rajamahendri Institute of Engineering and Technology popularly known as "RIET" was established in the year 2008 in Rajahmundry by "The Swarnandhra Educational Society" pioneered by Technocrats, Academicians and Philanthropists with a concrete plan to offer excellence in technical education and to meet the present as well as the changing needs of the corporate sector. The college is located in a peaceful and lush green environment away from the din and bustle of the crowded city life which is free from pollution and congenial to attain technical knowledge.

The college is affiliated to JNTUK Kakinada and approved by AICTE, New Delhi, Accredited by NAAC and Govt. of Andhra Pradesh. The college was started in the year 2008 with an intake of 240 students in 4 branches of B.Tech., with 60 students each in EEE, ECE, CSE and Mechanical Engineering branch were started with an intake of 60 in the year 2011. RIET has completed 14 years of successful functioning in the areas of Teaching, Learning, Evaluation, Research, Career planning, Training and Placement and is now in its twelfth year of its existence. The college is making rapid strides in the field of technical education and has emerged as a reputed institution in the JNTUK, Kakinada, Andhra Pradesh region. The institution always tries to look ahead in pursuit of excellence. All the management members of the college believe in adapting to the changes in advanced technologies. They continuously develop the infrastructural and instructional facilities of the institution for better performance in Engineering & Technology programmes.

About the Department

The Department of Electronics and Communication Engineering, Rajamahendri Institute of Engineering and Technology was established in the year 2008. The department of ECE has been known for its exceptionally strong Under-Graduate training programmes. Ranked among the prominent in East Godavari, the department has always been on a progressive path, thanks to the experienced and dedicated faculty members who have a strong commitment towards providing quality engineering education.

About the Program

STEPS IN RESEARCH PROCESS

Research Process is a systematic and structured approach that involves the collection, analysis, and interpretation of data or information to answer a specific research question or solve a particular problem.

Topics to be Covered

- ❖ Identify the Research Question or Problem
- ❖ Conduct a Literature Review
- ❖ Formulate a Hypothesis or Research Objectives
- ❖ Design a Research Plan and Methodology
- ❖ Collect and Analyze Data
- ❖ Interpret the Findings and Draw Conclusions
- ❖ Communicate the Result
- ❖ Review and Revise
- ❖ Ethical Considerations

OUTCOME OF THE PROGRAMME:

Creativity and critical thinking are of particular importance in scientific research. Basically, research is original investigation undertaken to gain knowledge and understand concepts in major subject areas of specialization, and includes the generation of ideas and information leading to new or substantially improved scientific insights with relevance to the needs of society. Hence, the primary objective of research is to produce new knowledge.

Research is both theoretical and empirical. It is theoretical because the starting point of scientific research is the conceptualization of a research topic and development of a research question and hypothesis. Research is empirical (practical) because all of the planned studies involve a series of observations, measurements, and analyses of data that are all based on proper experimental design
