## About the Institute

Rajamahendri Institute of Engineering and Technology popularly known as "RIET" was established in the year 2008 in Rajahmundry by "The Swarnandhra Educational Society" pioneered by Technocrats, Academicians and Philanthropists with a concrete plan to offer excellence in technical education and to meet the present as well as the changing needs of the corporate sector. The college is located in a peaceful and lush green environment away from the din and bustle of the crowded city life which is free from pollution and congenial to attain technical knowledge.

The college is affiliated to JNTUK Kakinada and approved by AICTE, New Delhi, Accredited by NAAC and Govt. of Andhra Pradesh. The college was started in the year 2008 with an intake of 240 students in 4 branches of B.Tech., with 60 students each in EEE, ECE, CSE and Mechanical Engineering branch were started with an intake of 60 in the year 2011. RIET has completed 13 years of successful functioning in the areas of Teaching, Learning, Evaluation, Research, Career planning, Training and Placement and is now in its eleventh year of its existence. The college is making rapid strides in the field of technical education and has emerged as a reputed institution in the JNTUK, Kakinada, Andhra Pradesh region. The institution always tries to look ahead in pursuit of excellence. All the management members of the college believe in adapting to the changes in advanced technologies. They continuously develop the infrastructural and instructional facilities of the institution for better performance in Engineering & Technology programmes.

## About the Department

The Computer Science and Engineering department was established in the year 2008 with initial intake of 60 seats, increased to 120 in the year 2010. The Department of Computer Science and Engineering has a mission to empower every student to be industrious, creative and quality conscious in the field of Information Technology by imparting quality technical education and inculcating human and ethical values. The faculty members are highly qualified and experienced with specialization in Machine Learning, Data Science, Networking, Algorithms, Data Mining, Image Processing, Software Engineering, Network Security, Computer Vision, Web Technologies, Internet of Things, Cloud Computing Services etc. Students are given proper exposure to current trends including IoT applications design and development, Cisco network management and administration, cloud services, bio-informatics, software architecture, sensor networks, cloud computing, mobile computing, soft computing, block chain technology, and artificial intelligence etc. through workshops, guest lectures, seminars by industry experts and professionals.

## About the Program

Introducing the participants with fundamental of entrepreneurship development so that they can understand the requirements and challenges in this area. The applied aspects of this workshop will be practical sessions where they can apply this knowledge in decision making. To understand the concept of main components, relationship between innovation and entrepreneurial development, theories of innovation of Entrepreneurship Development.

## Topics to be Covered

- Women entrepreneurship
- Entrepreneurship in India
- Rural entrepreneurship
- Micro, Small and Medium Enterprises
- Schemes of Incentives and Supports
- Venture capital
- Self Help Group
- Business opportunities Analysis and Identification

## Resource Person

**Mr. Prateek,**

Trainee cum Motivator from Mahalakshmi group, Vijayawada.

Date: 02-10-2021

## PROGRAMME REPORT

<b>Programme name</b>	A one day programme on <b>ENTREPRENEURSHIP DEVELOPMENT</b>
<b>Resource person</b>	<b>Mr.PRATEEK</b> , Trainee cum Motivator from Mahalakshmi group, Vijayawada

## About the Institute

Rajamahendri Institute of Engineering and Technology popularly known as "RIET" was established in the year 2008 in Rajahmundry by "The Swarnandhra Educational Society" pioneered by Technocrats, Academicians and Philanthropists with a concrete plan to offer excellence in technical education and to meet the present as well as the changing needs of the corporate sector. The college is located in a peaceful and lush green environment away from the din and bustle of the crowded city life which is free from pollution and congenial to attain technical knowledge.

The college is affiliated to JNTUK Kakinada and approved by AICTE, New Delhi, Accredited by NAAC and Govt. of Andhra Pradesh. The college was started in the year 2008 with an intake of 240 students in 4 branches of B.Tech., with 60 students each in EEE, ECE, CSE and Mechanical Engineering branch were started with an intake of 60 in the year 2011. RIET has completed 13 years of successful functioning in the areas of Teaching, Learning, Evaluation, Research, Career planning, Training and Placement and is now in its eleventh year of its existence. The college is making rapid strides in the field of technical education and has emerged as a reputed institution in the JNTUK, Kakinada, Andhra Pradesh region. The institution always tries to look ahead in pursuit of excellence. All the management members of the college believe in adapting to the changes in advanced technologies. They continuously develop the infrastructural and instructional facilities of the institution for better performance in Engineering & Technology programmes.

## About the Department

The Department of Mechanical Engineering At present, the department offers Graduatedegree . Mechanical Engineering Department is highly reputed for producing eminent engineers Mechanical Engineering Department is highly reputed for producing eminent engineers as professionals, researchers and entrepreneurs. Department has strong industry The Department has well-equipped laboratories such as pneumatics and hydraulic, Refrigeration and Air Conditioning, hydraulics Machinery, Theory of machines, thermal engg Lab, heat transfer lab, metrology, mettarralgy machine tool lab. Engineering work shop , production technology lab. Instrumentation and measurements lab. Many of its alumni occupy key positions in industries and institutions in India and abroad. The department is proud to be collaborated with well-known industries in niche areas.

## About the Program

Entrepreneurship and Industry Entrepreneurship is the attempt to create value through recognition of business opportunity, the management of risk taking, and through the communicative and management skills to mobilize human, financial, and material resources necessary to bring a project to fruition. To inculcate the entrepreneurial culture among the students and to expose student community to the entrepreneurial opportunities. To promote industry - academia interactions.

## Topics to be Covered

- ❖ The Beginning of a Business Idea
- ❖ Innovation
- ❖ Entrepreneurial Finance
- ❖ Effect Of Entrepreneurial Skills on Product Portfolio
- ❖ Digital Transformations In Entrepreneurship
- ❖ Entrepreneur Should Get Tax Breaks

## Resource Person

## OUTCOME OF THE PROGRAMME:

- ✓ The students and faculty learned about Legal Education & Research methodology.
- ✓ They given knowledge on:
- ✓ Research on continuous process to identify the problem and find its solution.
- ✓ Legal Research is necessary to give proper direction to the study of law.
- ✓ This will helps to students to understand various principles, methods and tools for research.

## About the Institute

Rajamahendri Institute of Engineering and Technology popularly known as "RIET" was established in the year 2008 in Rajahmundry by "The Swarnandhra Educational Society" pioneered by Technocrats, Academicians and Philanthropists with a concrete plan to offer excellence in technical education and to meet the present as well as the changing needs of the corporate sector. The college is located in a peaceful and lush green environment away from the din and bustle of the crowded city life which is free from pollution and congenial to attain technical knowledge.

The college is affiliated to JNTUK Kakinada and approved by AICTE, New Delhi, Accredited by NAAC and Govt. of Andhra Pradesh. The college was started in the year 2008 with an intake of 240 students in 4 branches of B.Tech., with 60 students each in EEE, ECE, CSE and Mechanical Engineering branch were started with an intake of 60 in the year 2011. RIET has completed 13 years of successful functioning in the areas of Teaching, Learning, Evaluation, Research, Career planning, Training and Placement and is now in its eleventh year of its existence. The college is making rapid strides in the field of technical education and has emerged as a reputed institution in the JNTUK, Kakinada, Andhra Pradesh region. The institution always tries to look ahead in pursuit of excellence. All the management members of the college believe in adapting to the changes in advanced technologies. They continuously develop the infrastructural and instructional facilities of the institution for better performance in Engineering & Technology programmes.

## About the Department

The Computer Science and Engineering department was established in the year 2008 with initial intake of 60 seats, increased to 120 in the year 2010. The Department of Computer Science and Engineering has a mission to empower every student to be industrious, creative and quality conscious in the field of Information Technology by imparting quality technical education and inculcating human and ethical values. The faculty members are highly qualified and experienced with specialization in Machine Learning, Data Science, Networking, Algorithms, Data Mining, Image Processing, Software Engineering, Network Security, Computer Vision, Web Technologies, Internet of Things, Cloud Computing Services etc. Students are given proper exposure to current trends including IoT applications design and development, Cisco network management and administration, cloud services, bio-informatics, software architecture, sensor networks, cloud computing, mobile computing, soft computing, block chain technology, and artificial intelligence etc. through workshops, guest lectures, seminars by industry experts and professionals.

## About the Program

This is a one-day workshop intended to educate students about the principles of research ethics in the social sciences and issues related to research ethics. The course aims at making doctoral students conscientious about ethics and ethical principles in the social sciences, and preventing fraudulent behavior in research. The seminar will focus on case studies of ethical problems and introducing the participants to tools that can reduce the problems. One important case study we will focus on, is Reinhart and Rogoffs controversial study of the effect of debt on economic growth. The tools will include an introduction to software and web based solutions that make it easier to create reproducible research. This includes a brief introduction to Jupyter notebooks which can be used with Python, R and many other data analysis frameworks. After taking the seminar students should be able to constructively reflect on the ethical issues associated with economic research and critically assess these issues in their own work.

## Topics to be Covered

- Data collection, data management, sharing, and ownership.
- Management of sensitive data.
- Proper referencing of others' research.
- Publication of research.
- Digitalization and (international) collaboration in research.
- Researchers in expert roles.
- Supervisor and mentor relationships.

### **OUTCOME OF THE PROGRAMME:**

- This course is useful for learners undertaking research with people using social research methods such as questionnaires, interviews etc.
- The course is essential for undergraduate students completing research for their final year project but it is also suitable for postgraduates and academic researchers.
- The course is part of the academic skills courses portfolio at the University of Leeds aiming to improve skills required for academic study.
- After taking the course the students will be able to conduct empirical research following the best ethical practices related to data collection, management and sharing. They will also be able to properly reference other people's research in their own work.

## About the Institute

Rajamahendri Institute of Engineering and Technology popularly known as "RIET" was established in the year 2008 in Rajahmundry by "The Swarnandhra Educational Society" pioneered by Technocrats, Academicians and Philanthropists with a concrete plan to offer excellence in technical education and to meet the present as well as the changing needs of the corporate sector. The college is located in a peaceful and lush green environment away from the din and bustle of the crowded city life which is free from pollution and congenial to attain technical knowledge.

The college is affiliated to JNTUK Kakinada and approved by AICTE, New Delhi, Accredited by NAAC and Govt. of Andhra Pradesh. The college was started in the year 2008 with an intake of 240 students in 4 branches of B.Tech., with 60 students each in EEE, ECE, CSE and Mechanical Engineering branch were started with an intake of 60 in the year 2011. RIET has completed 10 years of successful functioning in the areas of Teaching, Learning, Evaluation, Research, Career planning, Training and Placement and is now in its eighth year of its existence. The college is making rapid strides in the field of technical education and has emerged as a reputed institution in the JNTUK, Kakinada, Andhra Pradesh region. The institution always tries to look ahead in pursuit of excellence. All the management members of the college believe in adapting to the changes in advanced technologies. They continuously develop the infrastructural and instructional facilities of the institution for better performance in Engineering & Technology programmes.

## About the Department

The Computer Science and Engineering department was established in the year 2008 with initial intake of 60 seats, increased to 120 in the year 2010. The Department of Computer Science and Engineering has a mission to empower every student to be industrious, creative and quality conscious in the field of Information Technology by imparting quality technical education and inculcating human and ethical values. The faculty members are highly qualified and experienced with specialization in Machine Learning, Data Science, Networking, Algorithms, Data Mining, Image Processing, Software Engineering, Network Security, Computer Vision, Web Technologies, Internet of Things, Cloud Computing Services etc. Students are given proper exposure to current trends including IoT applications design and development, Cisco network management and administration, cloud services, bio-informatics, software architecture, sensor networks, cloud computing, mobile computing, soft computing, block chain technology, and artificial intelligence etc. through workshops, guest lectures, seminars by industry experts and professionals.

## About the Program

This Session was started with the topic Writing Effective Research Papers for SCI Journals. During the session Prof. Dr. R. Rambabu explained about research methodology, selection of a journal, structure of a journal, language issues, presentation of results and discussion, tools for quality improvement. During the session he explained the method of writing with examples of sample exercises. He also briefed about how to avoid plagiarism during the paper writing process. The task of writing is not as stressful as it seems.

## Topics to be Covered

- ❖ Find a journal – Be specific
- ❖ Prepare a persuasive introduction – Introduce your topic to the reader
- ❖ Write the methods – Capture the methods used
- ❖ Work on Results – Present the facts – it doesn't change
- ❖ Compile the discussion – Relate your results to the contemporary research
- ❖ Write a conclusion – Justify the significance of your work
- ❖ Compose an apt and precise topic – Make it captivating
- ❖ Write the Abstract.

## Resource Person

**Dr. R. Rambabu**

**PROGRAMME REPORT**

<b>PROGRAM ME NAME</b>	A one day seminar on “HOW TO WRITE A RESEARCH PAPER”
<b>RESOURCE PERSON</b>	<b>Dr. R.Rambabu , Associate professor, Head of the Department CSE</b>
<b>DATE OF ACTIVITY</b>	25-11-2021
<b>ORGANIZED BY</b>	<b>RAJAMAHENDRI INSTITUTE OF ENGINEERING AND TECHNOLOGY</b>
<b>VENUE</b>	<b>RIET LH- 205.</b>
<b>COORDINATOR</b>	<b>Mrs. A. Josh Mary</b>

**OBJECTIVE OF THE PROGRAMME:**

This Session was started with the topic Writing Effective Research Papers for SCI Journals. During the session Prof. Dr. R. Rambabu explained about research methodology, selection of a journal , structure of a journal, language issues, presentation of results and discussion, tools for quality improvement. During the session he explained the method of writing with examples of sample exercises.He also briefed about how to avoid plagiarism during the paper writing process. The task of writing is not as stressful as it seems. This workshop on research paper writing will make the entire process of writing an interesting and a rewarding experience. This workshop will help you to communicate your ideas in an organized manner acceptable by the academic fraternity.

**TOPICS COVERED:**

- Find a journal – Be specific
- Prepare a persuasive introduction – Introduce your topic to the reader
- Write the methods – Capture the methods used
- Work on Results – Present the facts – it doesn't change
- Compile the discussion – Relate your results to the contemporary research
- Write a conclusion – Justify the significance of your work
- Compose an apt and precise topic – Make it captivating
- Write the Abstract.

### OUT COME OF THE PROGRAMME

Students found this workshop interesting and knowledgeable. Students got to know a lot about how to start their journey on writing their first research paper. They also got to know the idea about publishing, patenting and copyrighting. Finally, he motivated students for quality research and stressed on productive teamwork to have good results.

They continuously develop the infrastructural and instructional facilities of the institution for better performance in Engineering & Technology programmes.

## About the Department

The Department of Electronics and Communication Engineering, Rajamahendri Institute of Engineering and Technology was established in the year 2008. The department of ECE has been known for its exceptionally strong Under-Graduate training programmes. Ranked among the prominent in East Godavari, the department has always been on a progressive path, thanks to the experienced and dedicated faculty members who have a strong commitment towards providing quality engineering education.

## About the Program

Intellectual property rights are at the foundation of the software industry. Each intellectual property "right" is itself an asset, a slice of the overall ownership pie. The law provides

different methods for protecting these rights of ownership based on their type. There are essentially four types of intellectual property rights relevant to software: patents, copyrights, trade secrets and trademarks. Each affords a different type of legal protection. Patents, copyrights and trade secrets can be used to protect the technology itself.

## Topics to be covered

- software development definition
- IPR Policy
- Ownership of IP
- Violations in software development
- Powers to amend IPR policy

## Resource Person

**Mr. Y. Rajesh**

Head of the Department,  
Department of Mechanical Engineering

## PROGRAMME REPORT

<b>Programme name</b>	A one day programme on BIO INFORMATICS AND INTELLECTUAL PROPERTY RIGHTS
<b>Resource person</b>	A.K.S. SIRISHA lecturer in Siddi degree college Ph.No:9553261342
<b>Date of activity</b>	24-11-2021
<b>Organized by</b>	RAJAMAHENDRI INSTITUTE OF ENGINEERING AND TECHNOLOGY
<b>Venue</b>	RAJAMAHENDRI INSTITUTE OF ENGINEERING AND TECHNOLOGY, G-4
<b>Programme coordinator</b>	Mr.D.N.V.RAMANA KUMAR

### Objective of the programme:

Intellectual property protection is one of the key factors for economic growth and advancement in any technological field. Intellectual property adds value to the discoveries and provides incentives to the investors. Moreover, it drives innovation and advancement in the competitive society. The growing investments in the area of bioinformatics have increased the need of adequate intellectual property laws. This is one of the key facets in any emerging area. The chapter discusses how different bioinformatics components relate to the intellectual property law system specifically in the context of patent and copyright law. It also looks into the requirements and limitations of intellectual property in the field of bioinformatics.

### Topics covered :

- Bio informatics
- Ownership of IP
- IP infringement
- Powers to amend IPR policy

### **Outcome of the programme:**

The students and faculty learned about Bio informatics and Intellectual property rights. They gain the knowledge on

- To have strong and effective IPR laws, which balance the interests of rights owners with larger public interest
- To modernize and strengthen service oriented IPR administration.
- To strengthen and expand human resources, institutions and capacities for teaching, training, research and skill building in IPR

On 24-11-2021 from our college students and faculties have participated in the Bio informatics and Intellectual property rights programme.

AP, 533107.

## About the Institute

Rajamahendri Institute of Engineering and Technology popularly known as "RIET" was established in the year 2008 in Rajahmundry by "The Swarnandhra Educational Society" pioneered by Technocrats, Academicians and Philanthropists with a concrete plan to offer excellence in technical education and to meet the present as well as the changing needs of the corporate sector. The college is located in a peaceful and lush green environment away from the din and bustle of the crowded city life which is free from pollution and congenial to attain technical knowledge.

The college is affiliated to JNTUK Kakinada and approved by AICTE, New Delhi, Accredited by NAAC and Govt. of Andhra Pradesh. The college was started in the year 2008 with an intake of 240 students in 4 branches of B.Tech., with 60 students each in EEE, ECE, CSE and Mechanical Engineering branch were started with an intake of 60 in the year 2011. RIET has completed 13 years of successful functioning in the areas of Teaching, Learning, Evaluation, Research, Career planning, Training and Placement and is now in its eleventh year of its existence. The college is making rapid strides in the field of technical education and has emerged as a reputed institution in the JNTUK, Kakinada, Andhra Pradesh region. The institution always tries to look ahead in pursuit of excellence. All the management members of the college believe in adapting to the changes in advanced technologies. They continuously develop the infrastructural and instructional facilities of the institution for better performance in Engineering & Technology programmes.

## About the Department(EEE)

The Department of Electrical Engineering is one of the oldest departments of Engineering. Established as one of the major departments of the Institute, the Department of Electrical Engineering has been actively engaged in teaching and research in diverse fields of Electrical Engineering. With excellent faculty, the Department of Electrical Engineering offers undergraduate (B.Tech). The department can boast about 10 well equipped labs, latest simulation and design software, excellent staff-student ratio who are continuous engaged in teaching-learning process. One batch have successfully completed their degree and are placed as well. The dept keen on developing consultancy services and welcomes funding research from outside agencies. We look at the potential contribution that our staff and students can make towards this aspect and strengthen the department further.

## About the Department(MECH)

The Department of Mechanical Engineering . At present, the department offers Graduatedegree . Mechanical Engineering Department is highly reputed for producing eminent engineers Mechanical Engineering Department is highly reputed for producing eminent engineers as professionals, researchers and entrepreneurs. Department has strong industry The Department has well-equipped laboratories such as pneumatics and hydraulic, Refrigeration and Air Conditioning, hydraulics Machinery, Theory of machines, thermal engg Lab, heat transfer lab, metrology, mettargly machine tool lab. Engineering work shop , production technology lab. Instrumentation and

measurements lab. Many of its alumni occupy key positions in industries and institutions in India and abroad. The department is proud to be collaborated with well-known industries in niche areas.

## About the Program:

Intellectual Property is an intangible knowledge product and shall mean and include all results, conclusions, deductions, inventions, ideas, improvements, discoveries, enhancements, solutions, process, modifications and copy rightable work, resulting from the intellectual output of the faculty, staff, students, research scholars and other employees of the College.

## Topics to be covered

- Policy statement
- Scope of the policy
- Ownership of IP
- IP infringement
- Powers to amend IPR policy
- Publication based on IP

## Resource Person

**Dr. Nagalatha. Bathina,**

Associate Professor

Mobile No: +91 9441173316

## About Department(ECE)

The Department of Electronics and Communication Engineering, Rajamahendri Institute of Engineering and Technology was established in the year 2008.The department of ECE has been known for its exceptionally strong Under-Graduate training programmes. Ranked among the prominent in East Godavari, the department has always been on a progressive path, thanks to the experienced and dedicated faculty members who have a strong commitment towards providing quality engineering education.

## About the Program

- ❖ To discuss the legislative framework of laws relating to Intellectual Property Protection
- ❖ To discuss about the role of judiciary in providing safeguards for the protection of Intellectual Property Rights.
- ❖ To discuss the challenges in implementing the TRIPS Agreement.
- ❖ To find out Intellectual Property challenge in the field of pharmaceuticals and solutions for the same.
- ❖ To modernize and strengthen service oriented IPR administration.

## Topics to be Covered

- Labour laws
- Taxation
- Law of contract
- IP Infringement
- Publication on IP
- IP Policy

### PROGRAMME REPORT

<b>Programme name</b>	A one day seminar on OPEN DATA AND INTELLECTUAL PROPERTY RIGHTS
<b>Resource person</b>	K.GREESHMA lecturer in Rajamahendri Degree college Ph.No:9542802027
<b>Date of activity</b>	01-02-2022
<b>Organized by</b>	RAJAMAHENDRI INSTITUTE OF ENGINEERING AND TECHNOLOGY
<b>Venue</b>	RAJAMAHENDRI INSTITUTE OF ENGINEERING AND TECHNOLOGY,G-4.
<b>Programme coordinate</b>	Mr.D.N.V.RAMANA KUMAR

#### Objective of the programme:

Intellectual Property Rights (IPR) Management Plan is an important part of your Data Management Plan. Your funding agency may have specific requirements for IPR management. Even if this is not the case, you will want to think about this important aspect of the research process. Data are considered "facts" under U.S. law. They are not copyrightable because they are discovered, not created as original works. However, other intellectual property protections may be utilized to protect your work and ensure proper attribution.

#### Topics covered :

- Labour laws
- Taxation
- Law of contract
- IP Infringement
- Publication on IP
- IP Policy
